TECHNICAL DATA SHEET

AIRGEARPRO D110C FFP3 NR D ACTIVATED-CARBON RESPIRATOR

MODEL NAME	**D110C FFP3 NR D**
DESCRIPTION	The AirGearPro D110C is an FFP3 disposable respirator with an activated carbon layer, offering high-level protection against fine toxic dust, fumes and mists, plus relief from nuisance-level organic vapors and odors. An integrated exhalation valve reduces heat and moisture build-up.
PROTECTION LEVEL	**FFP3 NR D — High-level protection**
STANDARD	CE EN 149:2001 + A1:2009

FEATURES

- Integrated exhalation valve for reduced heat and moisture build-up
- Activated carbon layer for relief from nuisance-level organic vapors and odors
- Adjustable spandex headbands for a secure, comfortable fit
- Moldable metal nose clip for an improved seal and reduced fogging

TECHNICAL DATA

- **Type:** With exhalation valve & activated carbon layer
- **Protection Level:** FFP3 (high-level)
- **Particle Filtration Efficiency (PFE):** ≥ 99%
- **Protection Against:** toxic dust, fumes & mists; nuisance organic vapors & odors
- **Classification:** NR D (single-shift use, Dolomite-tested)
- **Certification:** CE EN 149:2001 + A1:2009
